VERSION 1.0 | SEPTEMBER 2026

Draft whitepaper. Final contract address, supply, network, launch mechanics, creator allocation, fees and liquidity details will be added after \$CGP is created and verified.

What is \$CGP?

\$CGP is the planned community memecoin associated with CamgirlPal, a creator-first entertainment, media and community brand.

The goal is to give the CamgirlPal community a simple crypto-native way to participate in the culture and follow the project as the brand expands.

The core idea

CamgirlPal grows the brand. The community grows around it. \$CGP becomes the crypto-facing symbol of that community.

Designed for community participation

- A recognizable community memecoin tied to the public CamgirlPal identity.
- A mobile-friendly token planned for launch through Moonshot.
- A bridge between crypto users and CamgirlPal content, creators, gaming, live entertainment and community.
- A token people can independently buy, hold or sell, subject to market conditions and platform availability.

What \$CGP is not

\$CGP is not stock, equity, debt, a dividend, a revenue share, or ownership in CamgirlPal. It does not promise financial returns or guaranteed appreciation.

A Coin Around a Growing Brand.

CamgirlPal is building an ecosystem connecting creators, fans, community members and brands. \$CGP is intended to become the crypto-facing component of that larger ecosystem.

CREATORS	COMMUNITY	CONTENT
Models & talent	Fans & supporters	Live + media
Creator-first opportunities	Social + community spaces	Streaming, gaming and video
BRANDS	\$CGP	GROWTH
Partnerships	Crypto layer	Audience expansion
Advertising + collaborations	Community memecoin	More ecosystem discovery

Creator-first brand

CamgirlPal's broader model is built around brand partnerships and advertising rather than taking a percentage of creators' cam-show, OnlyFans or Fansly earnings.

The growth loop

Brand visibility -> community discovery -> content engagement -> broader CamgirlPal awareness -> more \$CGP discovery.

This is a community-growth concept, not a guarantee that growth of CamgirlPal will increase the market price of \$CGP.

Simple Mobile Trading.

CamgirlPal plans to launch \$CGP through Moonshot. Moonshot's current terms describe a service that lets users view and interact with digital assets, launch memecoins, and independently authorize transactions through connected wallets.

DISCOVER	BUY	SELL
Find \$CGP	Acquire \$CGP	Sell holdings
Official links will be published after launch	Users independently authorize supported purchases	Users independently authorize supported sales.

Important platform distinction

Moonshot's current Terms state that its services are for entertainment purposes and prohibit use of the service for certain business fundraising and financial activities. \$CGP therefore should not be marketed as equity in CamgirlPal or as a guaranteed investment return.

Trading is user-directed

Moonshot states that users personally review and authorize transaction messages through their wallets. Transactions involving memecoins are recorded through the applicable blockchain or third-party protocol.

Build the Brand. Expand the Community.

CamgirlPal intends to continue developing the underlying brand regardless of short-term \$CGP price movement.

PHASE	FOCUS	OBJECTIVE
01	Launch	Create and verify \$CGP; publish official contract and trading information.
02	Community	Connect \$CGP with CamgirlPal social channels, community spaces and the on-site game.
03	Content	Expand video, live entertainment, gaming and social content.
04	Brand	Grow advertising, partnerships, marketing and creator opportunities.
05	Expand	Evaluate future community integrations where appropriate.

Brand reinvestment

CamgirlPal's broader business strategy is to reinvest available business resources into marketing, content, community development, creator opportunities, technology and partnerships.

Any creator rewards, fees or other proceeds associated with the final \$CGP launch structure should be disclosed only after the actual Moonshot configuration is known and confirmed to be permitted.

Launch Facts - To Be Verified.

Technical fields are intentionally left open until the token is created. This avoids publishing a contract address, supply or allocation that later changes.

FIELD	STATUS
Token name	CamgirlPal Community Coin
Symbol	\$CGP
Launch platform	Moonshot - planned
Network	To be confirmed
Contract address	Publish only after creation and verification
Total supply	To be confirmed
Creator allocation	To be disclosed if applicable
Creator rewards / fees	To be disclosed if applicable and permitted
Liquidity mechanics	To be confirmed from final launch
Official trading link	To be published after launch

Verify before buying

After launch, users should verify the official \$CGP contract address and Moonshot trading link through CamgirlPal's official website and channels.

Memecoins Are High Risk.

Digital assets and memecoins are speculative. Prices can be extremely volatile, liquidity can change quickly, and buyers can lose some or all of the funds used to acquire a token.

Moonshot's current Terms state that its services are for entertainment purposes only, are used at the user's own risk, and do not provide financial or investment advice.

No ownership rights

\$CGP does not represent stock, equity, debt or ownership in CamgirlPal. Holding \$CGP does not provide dividends, revenue rights, profit rights, guaranteed appreciation or governance rights in CamgirlPal.

No guaranteed profit

Early participation does not guarantee profit. Even if the CamgirlPal audience or community grows, \$CGP may decline in value or become illiquid.

No financial advice

Nothing in this whitepaper, on the CamgirlPal website, or in CamgirlPal social content is financial, investment, legal or tax advice. Buyers should conduct their own research.

Transparency commitment

CamgirlPal intends to identify the authentic token publicly, avoid guarantees of financial returns, and update this document when verified launch details become available.

Official Platform References.

Moonshot-specific statements in this whitepaper were checked against Moonshot's official Terms of Use effective May 4, 2026.
